WHILE YOU WORK

Music motivates. Mood cheer. Mood soothe. A study in the UK showed that 81% worked faster when listening to music. Your work performance might increase not only the efficiency of your workforce but also their mental state, their emotional state.

According to Dr. David Lewis, neuropsychologist and chairman of Mindlab International: ‘Music is a very powerful management tool and it is very good for managing how you produce your workforce. It’s very effective in our workplace.

A study in the UK showed that 88% of participants were more accurate in their work when listening to music. Overall, music is a very powerful management tool and it's very effective in our workplace.

In a 2018 Nielsen report, it was found that 52% of the U.S. population attends some sort of live music event every year. In fact, 80% of millennial music-goers are more likely to attend music festivals as a way to escape everyday life. 84% of people ages 18 to 40 attend music festivals as a way to escape.

Jean Michel Jarre - We Can Fly
- Aerials on 23 June 1940. It was times as a “half hour’s weightless" escape.

'Weightless' induced the greatest relaxation. Weightless managed a relaxation score of 73%.
